DD/R # 740-62

**MEMORANDUM FOR: Comptroller**

**SUBJECT: DD/R Office of ELINT Budgetary Estimates  
for Fiscal Years 1963 and 1964**

1. In compliance with your request, attached is additional information and budgetary detailed planning for the Office of ELINT applicable to Fiscal Years 1963 and 1964.

2. Establishment of the Office of ELINT involves many changes in management of ELINT technical operations within the Agency. The justification for this reorganization was based on consolidation and improvement of technical control, operational guidance, and technical support of all Agency ELINT operations including those involving support of third parties.

3. Highlights in the establishment of this new ELINT capability are:

a. Creation of a new staff for the handling of Agency ELINT guidance, control, and evaluation;

b. Formation of improved capability for rapid preliminary and selected final analysis of Agency and selected community electronic intercepts;

c. An improved capability for the technical control of Agency and third party ELINT operations and for assistance to other services of the Government in similar operational endeavor; and

d. The improvement of Agency capabilities for research, development, and production of unique equipment essential to

4. In addition to the above, the Office of ELINT has been assigned new functions and responsibilities which involve:

a. Research and development relating to communications intercept equipment, the requirements for which will be placed by FI Division D, DDP, the foreign divisions DDP, and by the Office of Communications, DDS;

b. Planning for SIGINT intercept systems as recommended by the SIGINT Officer;

c. Cooperation with the Department of Defense services in research and development on both ELINT and COMINT systems and equipment; and

d. Through provision of a Quick Reaction Capability (QRC), a means for extremely rapid configuration of equipment suitable to the operational needs of the DDP divisions for ELINT and COMINT equipment and for special instrumentation to be used in all classes of stations whether mobile, ██████████, or fixed in character.
